

Does your home already have a roof covered porch?

Transform your porch with the American Dreamspace Patio Enclosure wall system. Let us show you how fast, easy & affordable it is to turn your porch into a Dreamroom.

Custom Patio Enclosure Wall Systems designed to fit your porch openings

Our Patio Enclosure System with sliding glass or swing in doors & several styles of windows provides hours of enjoyment during any season no matter what the weather.

"We love the feel of the outside with no bugs! The breeze that comes in on a summer day is just FABULOUS!! Our neighbors love it too... we all seem to gather here. Our son who is in the construction business was very impressed with the overall quality & build of the room!"
- Charles & Judith Donovan
Wells, Maine

"We absolutely love it! It is truly our favorite room in the house... year-round! The overall construction & quality was better than what any other company could offer. It was worth the investment & it was up in only 3 days! They are honest people, high in integrity & they stand behind their products."
- Dean & Sharon Magnuson
Eliot, Maine

"We love our new sunroom!"
"Thank you American Dreamspace!"
"We can't express in words how much we like this room. It's like being outside but in the warmth & comfort of inside. When we have company they all want to gather here!"
- Mr. & Mrs. McDonald
Arundel, Maine

Dreamroom Patio Enclosure Styles & Options:

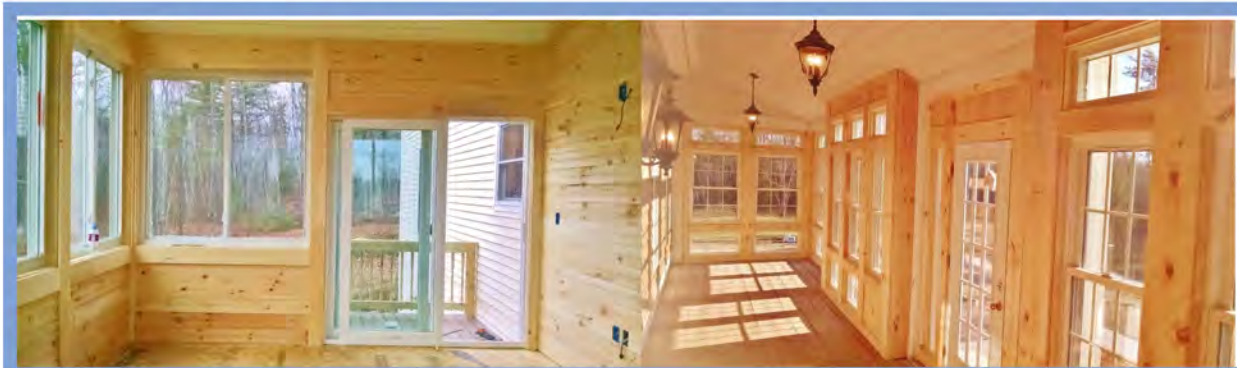

Cathedral Style

Marquee Style

Converted Screen Room/Porch

Tung & Groove solid natural knotty pine interior wall trim is standard. We never use cheap aluminum or plastic trim. Optional wood ceiling is available.

The American Dreamspace Dreamroom 6400 Series® is custom designed to your specific dimensions. Finished designs may vary from photographs shown.

"We Make Your Dreamroom A Reality"

*A year round Dreamroom
custom designed just for you!*

Now you can design a custom living space that meets your individual desires & evolving lifestyle with the comfort of a year-round Dreamroom from American Dreamspace.

Escape to your favorite vacation spot without leaving your home. A comfortable family room that turns into an entertainment center at night. Or, you might want to use your Dreamroom to simply unwind and enjoy the beauty of the outdoors after a long day! The possibilities are limitless.

Cathedral Roof Style Year Round Room with optional glass transoms & colonial grids between glass.

The American Dreamspace Sunroom will open a new world of opportunities for you, your family and friends. Now you can affordably and effortlessly expand your living space, while adding beauty, comfort, functionality and value to your home. Basking in the great outdoors without the worries of unpredictable weather will no longer be just a daydream with a Dreamroom by American Dreamspace.

The Dreamroom 6400 Series® sunroom is a revolutionary concept in sunroom design with improved structural & energy saving characteristics using engineered building products delivering strength and stability for long unsupported spans and dramatic window configurations utilizing state of the art windows which exceed ENERGY STAR® guidelines and are NFRC tested and certified.

Our Sunroom & Patio Enclosure components are manufactured & produced right here in New England. We never use cheap prefabricated aluminum wall systems like our competitors.

Customize your Dreamroom with options that fit your needs, lifestyle and budget. Pick the windows, exterior siding, wall coverings, shingles & type of ceiling material you prefer, its your choice!

Most Patio Enclosures & Sunrooms on the market today use cheap aluminum framing, are constructed of extruded aluminum with exposed screws, metal ceilings & unsightly white metal roofs similar to manufactured carports which do not match your home's design & appear added on with single pane glass windows. This causes your sunroom to be cold in the morning and uncomfortably warm as temperatures rise during the day. Our Dreamroom 6400 Series® sunroom is custom handcrafted onsite using premium energy-star rated windows, standard knotty pine interior trim or textured cellular PVC vinyl millwork trim both inside & out which looks, feels & performs like real wood and never needs painting but unlike our competitors all trim can be painted to match your home's interior & exterior trim!

Turn Your Seldom Used Deck Into A Dreamroom..

Marquee Roof Style

American Dreamspace, Inc. Patio Enclosures and Sunrooms, has utilized their decades of experience, research and design in the industry to develop one of the most functional and attractive Patio Enclosure and Sunroom Systems in today's market. American Dreamspace is on the forefront of the market and product innovations. Constant product development and modification is integrated into the most current technology by a highly trained and knowledgeable workforce. The Dreamroom 6400 Series® Patio Enclosure is built to exceed International Building Codes™. The windows used in our sunrooms exceed the American Architectural Manufacturing Association, National Fenestration Rating Council and ENERGY STAR® standards & requirements.

4- Season Year Round Cathedral Dreamroom 6400 Series® with optional knotty pine Tung & Groove ceiling & standard T&G pine wall trim.
